I join in ICU's proud vision of a World-Class Individual -educating professionals with diverse culture, unique Individuality and skills working in unison with one objective; Individuals united and governed with integrity, responsibility, safeguarding human dignity as it engages in a battle for a peaceful and united realm.

ICU takes pride as being the best university in Japan. Named as one of the most selective university, where students are guaranteed to be the best, the brightest and the finest in their craft. The same motivation I have for my university choice.

My journey as JDS Fellow is one exciting, fruitful, memory-filled experience. A journey worth revering, the ones that will make you say, I made the most of my career.

Being a student in a place away from home--- away from my comfort zone made me anxious at first. But my anxiety fade as easily as it came. I fell in love with Japan- people, culture and tradition. I am overwhelmed by the conservation of the culture despite modernity to meet the demands of time. The warmth of the people made me feel that I am home.

The atmosphere in the university shaped me in delivering of my craft with utmost excellence. I was trained to meet the demands of unprecedented time. I am enthused to be the best that I can be, to do things with the highest degree of professionalism and competence--- traits distinctive of an ICU student. The same traits which made me stand out from among my peers, earned the trust and admiration of my professors; thereby my conferment of Graduation is "With Honors".

These experiences are attestations that we Filipinos, through hard work, integrity and professionalism, are at par with the world. I will forever cherish my JDS experience. I am always grateful to JDS for this opportunity, an opportunity to journey as one despite diversity, to learn and to excel.
